

**FEMP / IAB meeting 2006 and EMC/EMEC/EGEC reunion**  
**23-26 November 2006**  
*Program*

The reunion of EMC, EMEC and EGEC will, again, be coinciding with the annual meeting of the organisation that supports the programs: FEMP (Federation of European Mineral Programmes) and its IAB (Industrial Advisory Board). Besides 52 students and some 50 alumni there are also expected representatives of 25 international companies as well as some 20 representatives of the academia. This ensures that the event will be an excellent opportunity to strengthen your network.

On Friday 24 and Saturday 25 November the **RWE Power** will host the FEMP annual meeting and reunion in Inden. On Friday morning the business meeting of the IAB will take place. Students and alumni of the three programs will join at lunchtime. In the afternoon a workshop will be organised by RWE Power with the theme: **"Investment Opportunities in Eastern Europe"**. During the workshop, the participants will

have the task to analyse different investment opportunities concerning projects in Eastern Europe. The assignment will be to identify the decisive parameters out of a set of data and to present a proposal whether or not to invest in certain countries and/or projects. There will also be tables available for the alumni and industry for information, brochures, etc. from their company.

The evening program includes a buffet dinner and drinks (compliments of RWE Power) in Inden. Budget accommodation will be organised for the participating students.

On Saturday 25 November a program will be worked out with activities, like in previous years. Industry and Academic representatives are quite welcome to join the students and alumni this day

There will be opportunities to visit RWE Power's Inden opencast mine for students and alumni on Friday and for industry and university representatives on Saturday.

During these two days there will be many challenging opportunities to revive old friendships and make new ones. Some 150 participants are expected (students, alumni, industry and universities)
