Exploration Geologist Vacancy

About Gemcom

When mining companies seek to increase the efficiency of their exploration activities, they turn to Gemcom for solutions and services. Gemcom is home to world-renowned mining software solutions like **GEMS**, **Surpac**, **Minex**, **Whittle**, and **InSite** and to industry thought-leaders who are pushing the boundaries of what's possible in mining and exploration. Established in 1985, Gemcom has a global reach delivering comprehensive solutions in all major mining centers in more than 90 countries. Every major mining company, including BHP Billiton, Codelco, De Beers, Newmont and Vale is a Gemcom client. Through a combination of organic growth and strategic acquisitions, the Company has become the largest global supplier of specialized mining productivity solutions.

Job Description

The EMENA Business unit of Gemcom Software is a regional business unit within the Company responsible for the delivery of product solutions and value added services for Europe, Middle East and North Africa. This is a high energy, fast paced environment that has an opening in its Coalville office for a Exploration Geologist to provide consulting solutions, project assistance, and training services. *If you are ready to take the next step in broadening your career in providing best practices solutions then we would like to hear from you.*

Job Purpose

To add value to our clients through providing consulting services, implementation of operational and software solutions at clients premises.

Cont....
