

Internship Process Engineering with Imerys Minerals

Imerys Minerals, the world leader in the mining and process of Minerals, are seeking to recruit a Process Engineering intern for a period of 6 months.

The successful candidate will have the opportunity to gain valuable experience working within our Performance and Filtration Minerals Group.

We would welcome applications from individuals with the following skills and experience:

- A level qualifications ideally including a science subject
- Good communication and organisational skills
- Good IT Skills
- Enthusiasm, motivation and self confidence
- Good practical problem solving skills
- Ability to work using own initiative and to be flexible team player
- Willingness to suggest additional areas of exploration as projects progress
- Ability to learn new processes quickly and thoroughly
- Full driving licence ideally
- Experience of working in an industrial environment would be desirable

The successful applicant, during the 6 month period, will be expected to have a flexible approach to working hours.

This is an excellent opportunity to join a successful international company and provides the opportunity to gain valuable practical experience within a multi-national organisation.

Applications should be in writing with a CV, by e-mail mark.crawford@imerys.com
